## Side Seam Press & Tape Fusing Machine

- Pneumatic operated for side seam press & tape fusing.
- Programmable fusing time and electric heating plate.
- Low air consumption that saves electricity, built-in powerful vacuum to keep garment in position.
- Designed with 2 digital temperature controllers on each mould to ensure the heating temperature is even throughout the contour heating plate.
- To apply even pressure for quality fusing, the heating plate is pressed down after the lower mould is transferred horizontally away from the operator. Thus, less fatigue for user.
- Safety feature includes two hands operating switches and hand protection frame.
