

NF-558V

Collar & Cuffs Press Machine

- Pneumatic operated with programmable fusing time and electric heating plate.
- Adjustable heating temperature by the micro temperature controller.
- Low air consumption that saves electricity, built-in powerful vacuum to keep garment in position while pressing.
- Transfer press for collar & cuffs simultaneously, making it more efficient.
- To apply even pressure for quality fusing, the heating plate is pressed down after the lower mould is transferred horizontally away from the operator. Thus, less fatigue for user.
- Easy to operate with safety features incorporated.

Total Consumption	Voltage	Air Consumption	Air Pressure	Machine Dimensions	Weight
4.6Kw	400V/3PH/50-60Hz	60 L/min	6.5 Bar	1020 x 1240 x 1620 mm	450 Kg
